BRITISH JOURNAL OF AUDIOLOGY

Formerly "Sound"

INDEX

Volume 7 (1973)

Published by

THE ROYAL NATIONAL INSTITUTE FOR THE DEAF

(Patron: H.R.H. The Duke of Edinburgh, K.G.)

in collaboration with the British Society of Audiology

105 GOWER STREET, LONDON WC1 6AH **Telephone: 01-387 8033**

British Journal of Audiology 1973 vol 7

Audiology: critical review, 53 (letter, 104).
Audiometry. *See also* Békésy audiometry
  evoked response, frequency scrambling, 47
  foetal. *See under* foetus
  no-response problem, 16
  pure-tone for screening of schoolchildren, 1
Auditory responses in neonates, 29

BEAGLEY, H. A., FISCH, L., HINCHCLIFFE, R., and KNIGHT, J. J. Comments on Deafness: *report of a Departmental enquiry into promotion of research*, 58-64
  —letter from Chief Medical Officer, 103
Békésy audiometry
  sweep frequency, attenuation rate, 49
BENCH, R. J. Subjective assessment of neonates' responses to sound (L), 102
  See also Langford, C.
BENCH R. J., HOARE, M., and PYE, A. Potential ear damage in foetal audiometry, 65-68
BENCH R. J., and MURPHY, K. P. Letter on A. V. M. Dickson's *Audiology: critical review*, 104
BOSTON, D. W. Synthetic facial communication, 95-101
BRASIER, V. J. *See* Van Zyl, F. J.
British Society of Audiology
  Annual address, by A. V. M. Dickson, 53
  —letter from R. J. Bench and K. P. Murphy, 104

CARSTAIRS, V. Utilisation of hearing aids issued by N.H.S., 72-76
CHILDREN. *See also* Infants
  how deaf are children? 41
  screening tests for school age children, 1
CHIVERALLS, K., and FitzSIMONS, R. Stapedial reflex action in normal subjects, 105-110
CHIVERALLS, K., and SHAW, S. D. Attenuation rate in sweep frequency Békésy audiometry, 49-51
Communication
  synthetic facial, 95

Deaf people
  contact with hearing people, 38
Department of Health and Social Security
  Deafness: report of Departmental enquiry into promotion of research, comments by H. A. Beagley and others, 58-64
  —letter from Chief Medical Officer, 103
DICKSON, E. D. D. Audiology: critical review, 53-57
  —letter from R. J. Bench and K. P. Murphy, 104

Face
  synthetic communication, 95
FISCH, L. *See* Beagley, H. A.
FitzSIMONS, R. *See* Chiveralls, K.
Foetus
  potential ear damage, 65

Hearing
  detection of short duration stimuli, 81
  speech discrimination curves, 69
  stapedial reflex action in normal subjects, 105
Hearing aids
  gain requirements in sensori neural hearing loss, 21
  utilisation by N.H.S., 72
Hearing people
  interaction with deaf people, 38
HINCHCLIFFE, R. *See* Beagley, H. A.
HINE, W. D. How deaf are deaf children? 41-44
  No-response problem, 16-20
HOARE, M. *See* Bench, R. J.

Infants. *See also* foetus; neonates
  evoked response testing, frequency scrambling, 47

KNIGHT, J. J. *See* Beagley, H. A.

LANGFORD, C., and BENCH, R. J. Neonatal auditory responses assessed by trained and untrained observers, 29-37
  See also Bench, R. J., 102
Language disorders
  experimental tests for, 9
LEITH, C. Screening tests of hearing for school age children, 1-4
Lip reading
  synthetic facial communication, 95

MACLEAN, M. Interaction between deaf and hearing population, 38-40
MARTIN, M. C. Hearing aid gain requirements in sensori neural hearing loss, 21-24
MURPHY, K. P. *See* Bench, R. J.

National Health Service
  utilisation of hearing aids, 72
Neonates
  auditory responses, 29

Otosclerosis
  pensions. *See* pensions

Pensions
  appeal cases of otosclerosis and acoustic trauma, 45
PYE, A. *See* Bench, R. J.

Rawson report. *See* Department of Health and Social Security. *Deafness: report of a Departmental enquiry . . .*
Research
  Deafness: report of a Departmental enquiry into promotion of research, 58
ROBIN, I. G. Pension appeal cases of otosclerosis with acoustic trauma, 45-46
RODDA, M. Experimental tests for use in diagnosing language disorder, 9-15

Schoolchildren. *See* children
Sensori neural hearing loss
  hearing aid gain requirements, 21
SHARRARD, G. A. W. Use of frequency scrambling technique in electric response audiometry, 47-48
SHAW, S. D. *See* Chiveralls, K.
Speech discrimination
  monaural and binaural curves, 69-71
Statistics
  no-response problem, 16
STEPHENS, S. D. G. Experiments on detection of short duration stimuli, 81-94

VAN ZYL, F. J., and BRASIER, V. J. Comparison of monaural and binaural speech discrimination curves, 69-71
Zyl, F. J. Van. *See* Van Zyl, F. J.
